The Lutheran Hospital School of Nursing candidate for the Miss Student Nurse of Indiana contest was Miss Grace Baumgartner, shown above. Grace proved herself not only an excellent student, a model classmate, but a nurse whose tender, considerate care of each of her patients endeared her to all with whom she came in contact.

With admiration and respect, we pay tribute to one of the finest examples of a nurse we have had the honor to know. Her professional dignity and deep humbleness merge to produce warmth, kindness, understanding, and concern for her fellowman.

As an instructor, her ability is unmatched; as a nurse her tenderness brought comfort and cheer to her patients; and as a woman, her character is of the highest degree.

She has been both a friend and a counselor to hundreds of student nurses as well as registered nurses; and with deepest sincerity we pay our homage to Miss Pauline Bischoff, one of the finest Director of Nurses we have ever had.

Sharlene Limecooly was the winner of a contest held for the purpose of finding a suitable and original title for the first annual to be published at the Lutheran Hospital School of Nursing since 1929. Her suggestion was the chosen title of "Appendix".

Webster defines the word appendix as, "Matter added to a book but not essential to its completeness, as a bibliography, notes, or tabular matter". So it is that we think of our annual as containing "tabular matter" added to our nursing school life, though it is not the essential part of our stay here.

The staff sincerely hopes that the Appendix will become a permanent part of school life here and wishes to extend thanks to all who helped make it possible.

Rosemary Lee
Editor-in-chief
of the Lamplighter

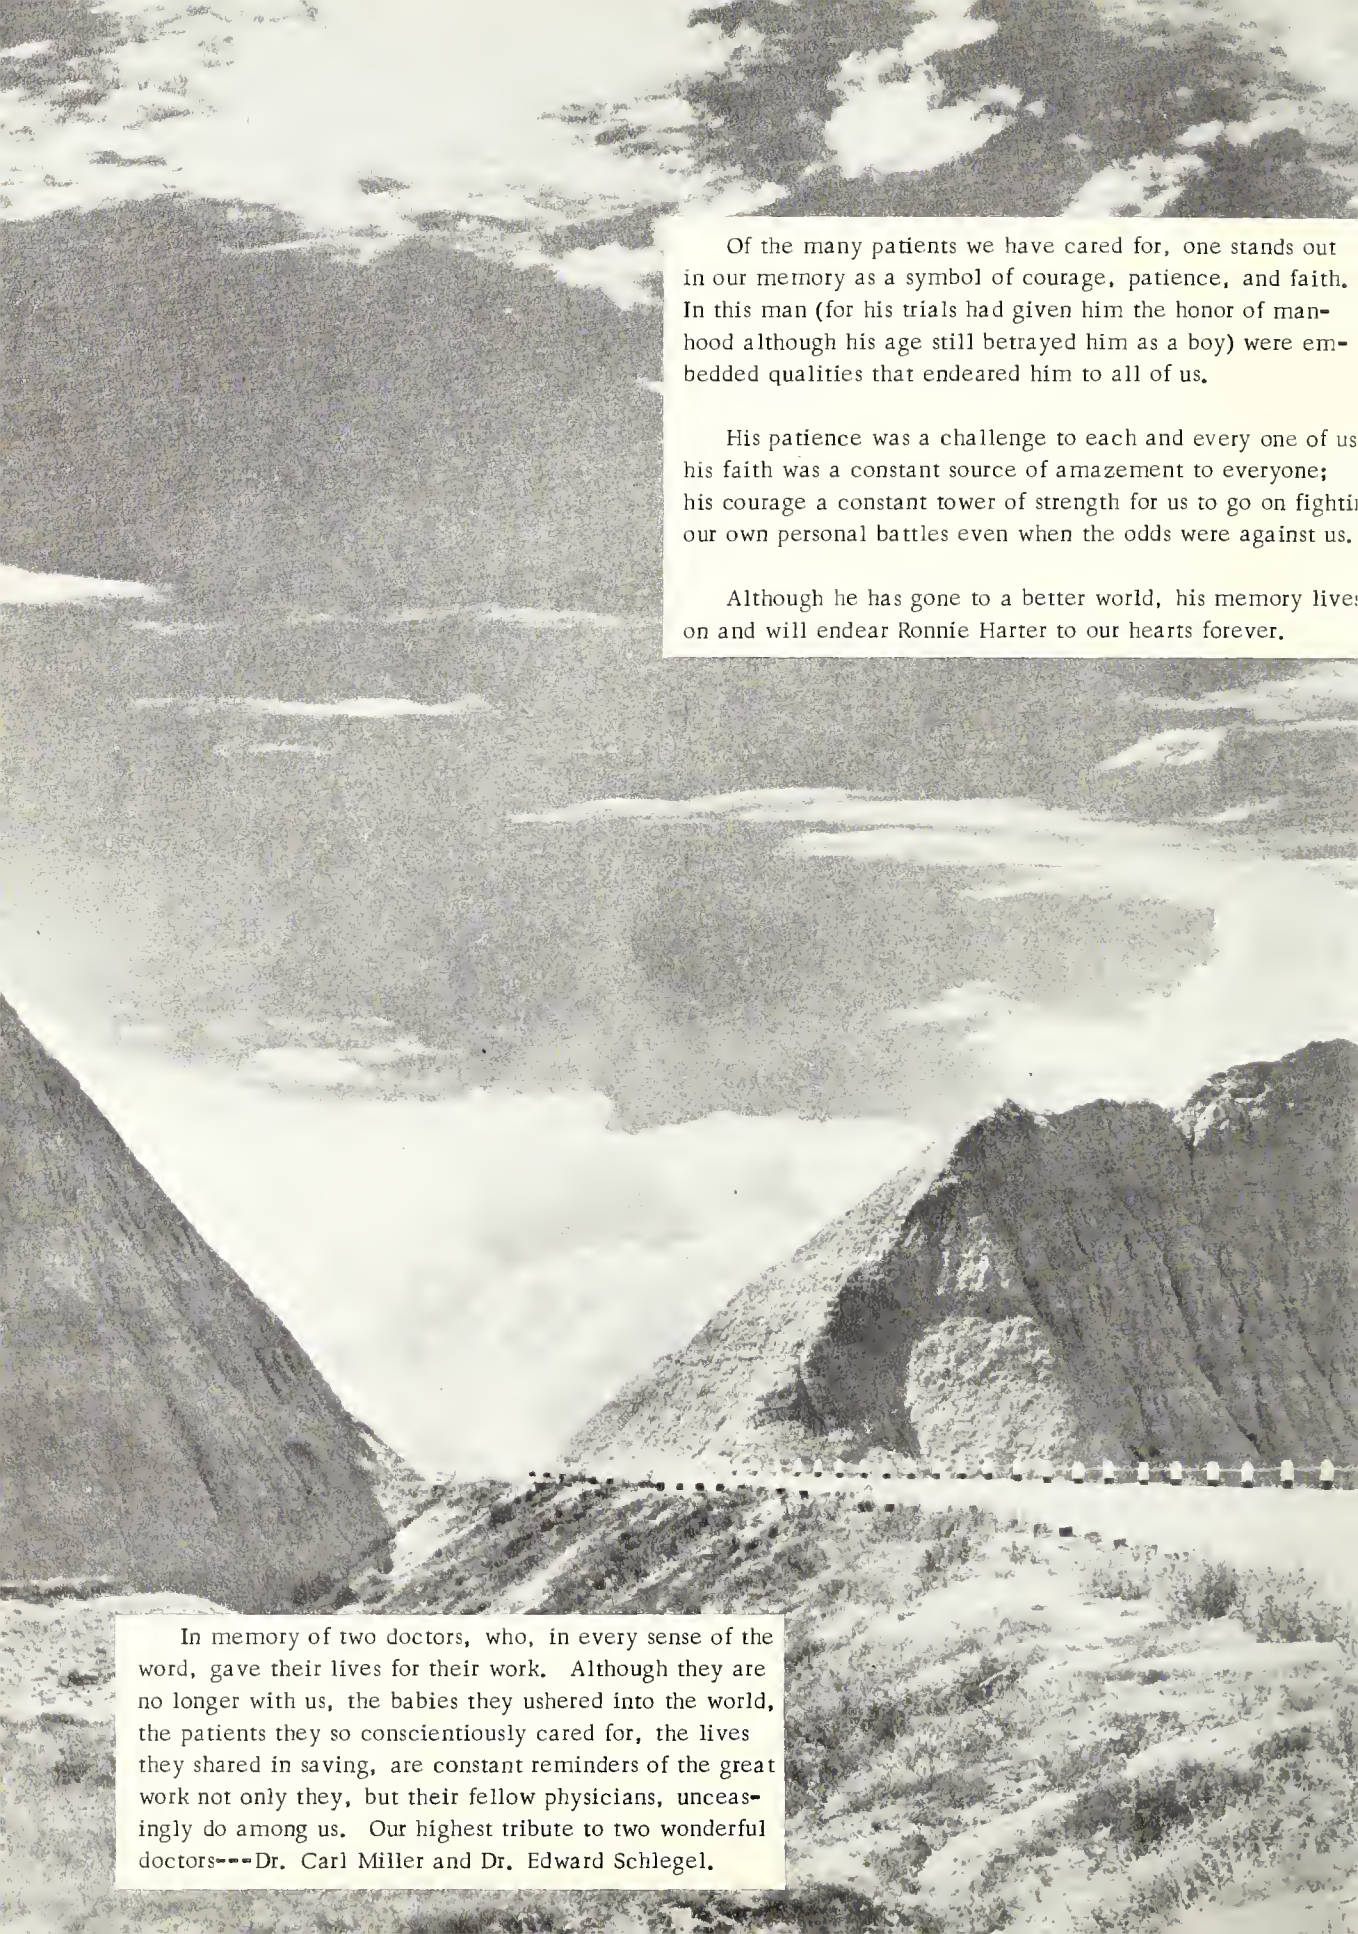

As every school of distinction has a journal of news and noise, the Lamplighter represents our Lutheran Nursing School. This year it has taken on a new look since it is sent to press instead of being mimeographed. The talents of many students, R. N. 's and others are correlated under the editor-in-chief, Miss Rosemary Lee. We hope it will continue to grow in popularity in the future as it has in the past.

A black and white photograph of a mountain landscape. In the foreground, a winding road or path leads towards a small, white building with a dark roof, possibly a cabin or a small house, situated on a hillside. The background features steep, rocky mountains under a sky with scattered clouds. The overall scene is serene and majestic.

Of the many patients we have cared for, one stands out in our memory as a symbol of courage, patience, and faith. In this man (for his trials had given him the honor of manhood although his age still betrayed him as a boy) were embedded qualities that endeared him to all of us.

His patience was a challenge to each and every one of us; his faith was a constant source of amazement to everyone; his courage a constant tower of strength for us to go on fighting our own personal battles even when the odds were against us.

Although he has gone to a better world, his memory lives on and will endear Ronnie Harter to our hearts forever.

In memory of two doctors, who, in every sense of the word, gave their lives for their work. Although they are no longer with us, the babies they ushered into the world, the patients they so conscientiously cared for, the lives they shared in saving, are constant reminders of the great work not only they, but their fellow physicians, unceasingly do among us. Our highest tribute to two wonderful doctors---Dr. Carl Miller and Dr. Edward Schlegel.
